

## Report prepared for Town Councils and Parish Councils on Romney Marsh.

May 2019.

The Romney Marsh as a whole is approaching the busy time of year where the population is increased with incoming holiday makers to the area, and then on the Rural parts of the area the Farmers will be looking at Harvest time in the next few months, all this activity means there is far more traffic on the roads and this brings issues with accidents and other problems, like parking in the seaside areas.

Please may we point out that the Kent Police Website contains a lot of very useful information concerning crime and issues in the areas, it's easy to use, just a location or post code.

### NEWCHURCH, IVYCHURCH and OLD ROMNEY.

As this is the rural part of Romney Marsh, the main concern approaching is harvest time as the roads become very busy with contractors harvesting for the farmers. We know how frustrating this can be for residents when they are held up by a large slow moving vehicle, but we ask that they be patient, it is all about living in the country side. The main ongoing concern in the areas is one of poaching and civil trespass on to land. We do attend to every call that is made about this issue, and the Rural Team also patrol the area.

We do not hold any surgeries in these areas, as in the past they have been very poorly attended, but any resident is welcome at any of the Surgeries we hold in other parts, and of course, we can be asked to attend to see anyone simple by contacting 101, or using the Kent Police website.

As you can see from the above, the area is a safe place to work and to live in, and with help from all the Councils, we can try to keep it that way. We are always contactable, either by e mail, the Kent Police Website or via 101, and of course we will always return your contact.

Best Regards

PCSO GORHAM
